<b>NATURE DE L'APPEL : REQUÊTE EN REJET D'APPEL</b>	

Appellant appeals from a judgment rendered by the Superior Court dismissing with costs her motions to judicially review 4 decisions of the Commission des lésions professionnelles.

According to article 26 of the *Code of Civil Procedure*, the judgment of the Superior Court could not be appealed from without leave being obtained from a judge of this Court.

At the hearing this morning, on the basis of article 523 of *the Code of Civil Procedure*, appellant asks the Court to grant her the authorization required.

2

The Court will not grant leave to appeal in this matter, being of the unanimous view that such appeal has no reasonable chance of success. The judgment of the Superior Court is well founded and the inscription in appeal fails to show any error on the part of the judge of first instance.

FOR THESE REASONS, THE COURT:

GRANTS the motion to dismiss the appeal, with costs;

DISMISSESS the appeal, with costs.

DISMISSES the motion for leave to appeal, without costs.
